OMS Electric (S) Pte Ltd is a dynamic organization that specializes in electrical products for marine & offshore use. We cover the full range of supply chain functions, catering to ship-owners, shipyards, ship-management companies and ship chandlers companies in Singapore and throughout South East Asia.

We have a team of management and technical professionals with industry experience of over ten years. Our extensive knowledge on electrical marine accessories allows us to give customers accurate and practical solutions. We leverage on our wide network of industry partners to procure materials effectively according to market demands. Having strategic connections also translate to a more competitive pricing scheme across our product selection
